

PAID RESEARCH STUDY FOR CARE PARTNERS OF PEOPLE WITH EPILEPSY

RISE ABOVE
An Epilepsy Program

What is the purpose of this study?

Our goal is to better understand challenges faced by care partners of people with epilepsy and to pinpoint opportunities for enhancing support.

What would participation entail?

We will use surveys to explore how your loved one's epilepsy influences your daily life, your experiences with stigma, and the potential impact on family dynamics.

Is there a cost associated with participating?

There is no cost associated with participating in this research study. Participants will be reimbursed for completing questionnaires about their experience.

Who can participate?

- Adults who provide support, assistance, and/or supervision to fulfill the needs of a person with epilepsy
- Must speak, read, and write English fluently
- Cannot have severe mental illness or intellectual disability
